

**AMENDMENTS TO THE CLAIMS:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

1. (Currently Amended) In an apparatus reproducing video and audio signals by receiving a broadcast signal, a TV, comprising:

a storing unit for storing proper information of ~~a product~~ the TV, and contact information of a certain site; and

a controlling unit for controlling displaying of information corresponding to function information and an error checkup menu of the ~~product-TV~~ received from the Internet based on the proper information of the ~~product-TV~~ and the contact information.

2. (Currently Amended) The TV according to claim 1, wherein the controlling unit automatically restores an error of the ~~product-TV~~ based on received information.

3. (Currently Amended) The TV according to claim 1, wherein the certain site is a service-related site providing information corresponding to the function information and the error checkup menu of the ~~product-TV~~.

4. (Currently Amended) The TV according to claim 1, wherein the information corresponding to the function information and the error checkup menu of the ~~product~~TV is received from the service-related site server.

5. (Currently Amended) The TV according to claim 4, wherein the controlling unit transmits the proper information of the ~~product~~TV to the service-related site server.

6. (Currently Amended) The TV according to claim 5, wherein the proper information of the ~~product~~TV is contacted to the service-related site server through a network interface.

7. (Currently Amended) The TV according to claim 1, wherein the proper information is a model name or a model number of the ~~product~~TV.

8. (Original) The TV according to claim 1, wherein the contact information is a URL (Uniform Resource Locator) of the certain site.

9. (Original) The TV according to claim 1, wherein the function information is information corresponding to video or audio-related functions or information corresponding to a special function.

10. (Currently Amended) A control method of a TV, comprising:  
transmitting proper information of ~~a product~~ the TV to a certain site;  
receiving service menu information corresponding to the ~~product~~ TV;  
selecting information from the received service menu information;  
receiving the selected information from the service menu information; and  
displaying the selected information on a screen of the TV.
11. (Previously Presented) The control method of the TV according to claim 10,  
further comprising restoring an error item based on the received selected information.
12. (Currently Amended) The control method of the TV according to claim 10,  
wherein the transmitting includes contacting the certain site by referencing contact information  
of a service-related site stored in advance, and transmitting the proper information of the  
~~product~~ TV to the certain site when a checkup key signal is inputted by a user.
13. (Previously Presented) The control method of the TV according to claim 12,  
further comprising processing a broadcast signal after receiving it when the checkup key signal is  
not inputted.

14. (Currently Amended) The control method of the TV according to claim 10, wherein the service menu information comprises a function information menu and an error checkup menu of the ~~product~~ TV.

15. (Currently Amended) The control method of the TV according to claim 10, wherein the displaying comprises:

receiving a list of errors after judging whether an error occurs in the ~~product~~ TV when the selected information is error checkup menu information; and

receiving measures about the error in order to restore the error automatically when information for restoring the error exists in the list of errors.

16. (Previously Presented) The control method of the TV according to claim 15, further comprising generating a new item about the breakdown of error and adding it to the list of errors when the information for restoring the error does not exist in the list of errors.

17. (Currently Amended) The control method of the TV according to claim 15, further comprising requesting repair about a fatal error to a serviceman when the error occurred in the ~~product~~ TV is fatal.

18. (Currently Amended) The control method of the TV according to claim 10, wherein the displaying comprises:

outputting a list of functions corresponding to the ~~product~~ TV when the selected information is a function information menu of the ~~product~~ TV; and

displaying function information requested by a user in the list of functions on the screen.

19. (Previously Presented) The control method of the TV according to claim 18, wherein the function information comprises information corresponding to video or audio-related function or information corresponding to a special function.

20. (Currently Amended) The control method of the TV according to claim 10, further comprising receiving general homepage information and displaying it on the screen of the TV when the proper information is not transmitted to the certain site.

21. (Previously Presented) The control method of the TV according to claim 10, wherein receiving the service menu information includes receiving an error checkup menu from the site.

22. (Currently Amended) The control method of the TV according to claim 21, wherein receiving the selected information includes receiving measures to automatically restore an error of the TV.

23. (Previously Presented) The control method of the TV according to claim 22, further comprising the TV automatically restoring the error based on the received measures.

24. (Previously Presented) The TV according to claim 1, wherein the controlling unit further transmits information regarding an error to the certain site.

25. (Currently Amended) The TV according to claim 24, wherein the controlling unit receives measures to automatically restore the error, and the controlling unit automatically restores the error of the TV based on the received measures.

26. (Previously Presented) The TV according to claim 2, wherein the received information is based on selection of an item in the error checkup menu.

27. (Currently Amended) ~~An apparatus~~ A television comprising:  
a storing unit to store information of a ~~product~~ the television; and  
a controlling unit to transmit the stored information and error information of the ~~product~~ television to an Internet site, the controlling unit to receive error information based on

the transmitted error information, and the controlling unit to automatically apply the received error information so as to restore the error of the television.

28. (Currently Amended) The ~~apparatus~~ television of claim 27, wherein the received error information comprises an error checkup menu of the ~~product~~ television.

29. (Currently Amended) The ~~apparatus~~ television of claim 27, wherein the apparatus comprises a ~~the~~ television having a display.

30. (Currently Amended) The ~~apparatus~~ television of claim 27, wherein the controlling unit further outputs errors and controls displaying error information requested by a user.
